# BAKING POWDER

Made from Grape Cream of Tartar, and Absolutely Pure

Highest award, Chicago World's Fair.  
Highest tests by U. S. Gov't Chemists.

PRICE BAKING POWDER CO.,  
CHICAGO.

Imitation baking powders are mostly made  
from alum. They cost less per pound,  
but their use is at the cost of health.

## PUPILS ASK THEIR PRINCIPAL TO SHAVE.

Leave Change Necessary for Ton-  
sorial Operation in a Note  
on His Desk.

Considerable comment has recently been  
caused in school circles in St. Louis County  
over the actions of a number of the pupils  
of the Eureka school in taking up a col-  
lection to pay for a shave for their prin-  
cipal, H. H. Hauhart, a grandson of  
"Father" Hauhart, who died last Sunday  
in Ballwin. They put the money in an en-  
velope with a note, explaining the purpose  
of the contributions, and left it on the  
principal's desk.

Mr. Hauhart is said to have regarded the  
offer as a joke.

With Miss Clara Detering, his assistant, it  
was different. Miss Detering decided that  
the discipline was being threatened, and  
complained to the principal. Hauhart told  
her that he had sole charge of the pupils.  
Now the principal and assistant do not  
speak.

Encouraged by their immunity from pun-  
ishment, the boys have since been playing  
other pranks. On one occasion they locked  
their principal out of his room, and since  
have turned up the fire in the school yard.  
Miss Detering has asked the  
patrons of the school to take action in the  
matter, but so far they have not complied  
with her request.

Perfect Spectacles, Properly Fitted,  
Cure defects of vision. The eyes should be  
scientifically examined by Dr. Bond, expert  
optician, at Mermod & Jaccard's, Broadway  
and Locust. (No charge for examination and  
a proper fit guaranteed.) Steel frames,  
\$1 and up; gold, \$5 and up.

WANTED HIS SON PROMOTED.

School Board President Precipitated  
Row in St. Louis County.

Because Miss Isabelle Crow, principal of  
the Augustine School, near Eureka, St.  
Louis County, did not promote the son of  
President William Gert of the School  
Board, the latter called a meeting of that  
body, delivered an ultimatum to the prin-  
cipal, and raised a tumult that has now in-  
volved practically every patron of the  
school.

Miss Crow made her semiannual prom-  
otions last week, and Robert Gert was the  
only boy in his class who was not pro-  
moted. The matter was brought before the  
board, and the latter summoned C. F. Flanagan  
and Charles Edwards, the other members of  
the board, immediately. The discussion  
decided that Robert should be promoted.  
Flanagan then moved that the board  
and an exciting scene occurred. The discussion  
finally became so vehement that some of the  
patrons fled in terror from the room.

It was finally decided to send to Clayton  
for School Superintendent Andrea. The  
latter went to Eureka, Wednesday, and  
found every patron of the school waiting for  
him. He started to hear evidence in the  
case and it is said the conflicting parties  
clashed immediately. One of the patrons,  
F. Quinn, who is a St. Louis contractor,  
offered to fight Mr. Andrea, but the latter  
ordered that Gert be promoted. Mr. Andrea  
noticed on his father that he must not com-  
plain if he did not succeed in keeping up  
with the class.

GERMANS SEND AID TO BOERS.

Money and Material Comforts for  
Those in Concentration Camps.

Berlin, Feb. 14.—The German Boer Relief  
Committee has voted an immediate grant  
of 800,000 marks, half in cash and half in  
material comforts, for the use of the Boers  
in the concentration camps of South Africa.

Outraged of nose or throat immediately re-  
lieved and ultimately cured by use of  
"Boro-Formalin." (Elmer & Amend.)

Texas Strawberries Ripening.

Houston, Tex., Feb. 14.—The strawberry  
crop in the Texas coast country will be the  
biggest ever put on the market, and the  
present condition of the crop is very satis-  
fying. Picking will begin within a week,  
and the first berries being now nearly matured.

INDORSE BANKRUPTCY LAW.—The  
St. Louis Manufacturers' Association has  
indorsed by resolution all of the amend-  
ments to the National Bankruptcy Law  
which are now before Congress and em-  
bodied in what is known as the Ray bill.

CITY ITEMS.

YOU will do well for yourself and nobly  
for your boys when you seek no further for  
their clothing than the Up-to-date Boys' Wear  
Clothing Department at CRAWFORD'S,  
second floor, choice of grand-stairway or  
five powerful steam passenger elevators.  
You will find nothing but reliable goods  
there, and much the finest room in the city  
for cleanliness, space, air and light.

TEL. MAIN 3014. KINLOCK & CO.

## WEATHER DOES NOT RETARD WORK ON THE CORA AVENUE SEWER.

Blockade of Marcus avenue by workmen building the new Cora avenue district sewer main, corner of Marcus avenue and North Market street.

The work of building the Cora avenue district sewer is being carried on at Marcus avenue and North Market street. The construction of the sewer began at Cora and Ashland avenues last August. At the starting point it is 7 feet in diameter. At Marcus avenue and North Market street, shown here, it is 24 feet. It is constructed of brick and is from 9 to 12 feet below the surface, according to the lay of the ground. At the point shown here it is about 12 feet. From this excavation the dirt is hoisted by means of an engine and hoisting truck, which operate on a temporary railroad built over the ditch. Traffic is suspended or turned aside from streets where the work is in progress.

The new sewer extends along Cora avenue to St. Louis avenue, on St. Louis to Marcus, along Marcus to North Market street, where it turns and will proceed under the alley between Hammett place and Garfield avenue toward King's highway, the terminus of the Cora avenue district main.

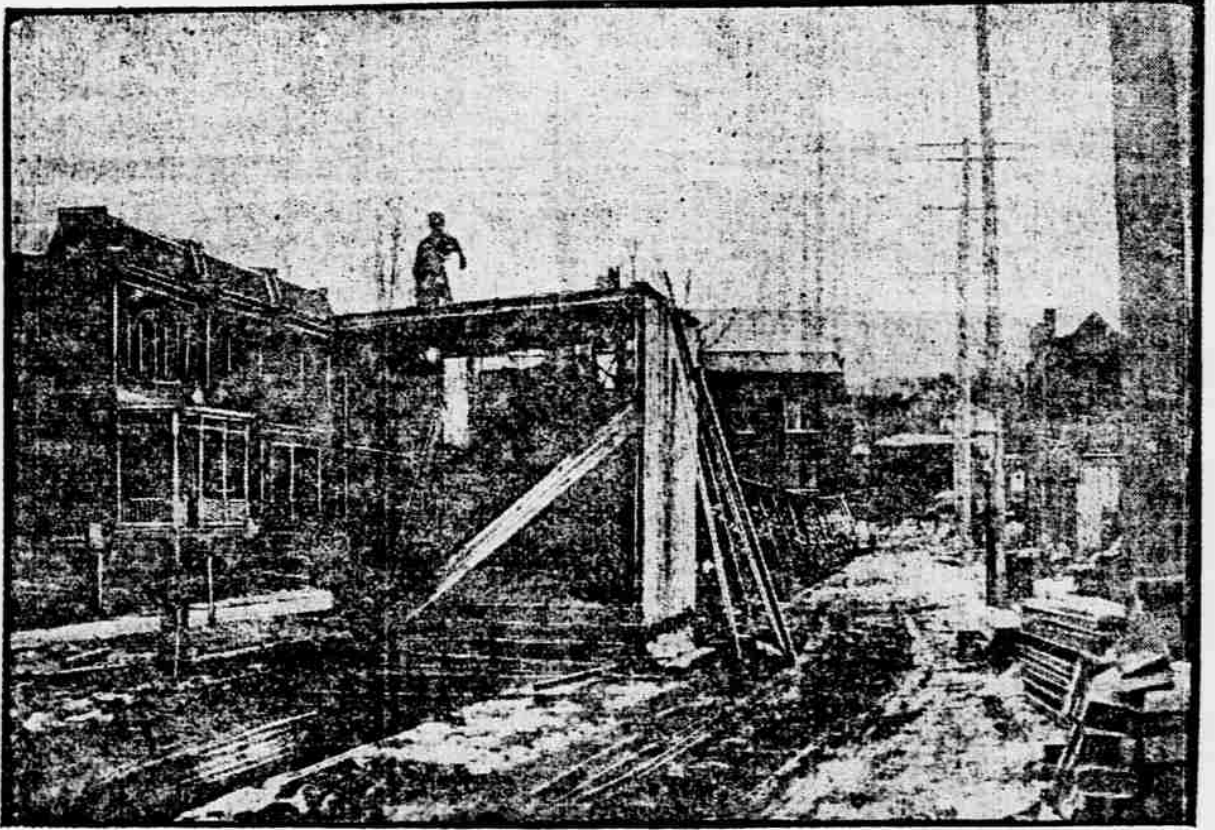

Hundreds of people stop every day to watch the work at the various places it is in progress, and to see the great machines moving about. The men down in the big ditch, making a great round riverway with brick, adjusting its level and direction, suggest the thought that in the New St. Louis the great feats of engineering and building will not be all above the ground.

## LEFT TO BOARD OF HEALTH.

Sanitary Provisions as to Sewers in Board's Scope.

President Phillips of the Board of Public Improvements and Sewer Commissioner Hermann are of the opinion that the Board of Health should formulate ordinances pre-  
scribing sanitary regulations concerning the throwing of refuse into sewers. Com-  
missioner Hermann said that the board  
will submit a new draft to the Board of Public Improvements to-day, omitting the  
garbage clauses.

Integrity of the board has been unjustly  
impugned over the return of a sewer to the  
board by the City Council. The bill in  
question provided amendments to the mu-  
nicipal code so as to make the sewer sec-  
tions of the code conform to the Charter  
amendments. The bill proposed amend-  
ments to six sections of the municipal code,  
the amendments consisting entirely of the  
addition of the words "joint district."  
Section 12, as now in the code, "President  
Phillips said, 'prohibits the Garbage  
Reduction Company from throwing off  
into the sewers any and all refuse or  
other material for any other purpose  
than for treatment by the sewer process.'"  
The board made no change in this or-  
dinance other than to add the words "joint  
district." I cannot understand why this  
should give opportunity for criticism, for  
I'm sure the Board of Public Improve-  
ments has no intention to perpetuate the  
present reduction works, or to assist the  
company to hold its contract. The sanitary  
clause was added because it should be  
amended by the Board of Health. If the  
board deems an amendment necessary, it  
will submit a new draft to the Board of  
Public Improvements to-day, omitting the  
garbage clauses.

Blockade of Kennerly avenue by contractors' machinery in the construction of the Cora avenue district sewer main.

## PROCTOR WILL NAME DATE OF FLIGHT.

Chicago Airship Inventor Says He  
Will First Descend on  
Lake Michigan.

D. Ransy Proctor of Chicago has advised  
the World's Fair authorities that he will  
notify them of the date on which he will  
make the first ascension over the city on  
the jakes in the new airship that will be  
entered in the aerial tournament.

Inventor Proctor says he is making the  
final tests of his craft and the crew which  
is being drilled to operate it. On the date  
of the first flight, he says, it will rise over  
Chicago to an altitude of 2,000 feet, and,  
after displaying its obedience to the will of  
the navigators, will move in a circular  
course downward and alight on the surface  
of Lake Michigan, along which it will glide  
safely and rapidly.

The craft will then be taken to the aerodrome,  
which has been provided for it, where it  
will be overhauled and made ready for  
its trip to St. Louis. The date of this flight  
will be announced to the Exposition au-  
thorities, so that preparations can be made  
to be on the lookout for the appearance of  
the ship. The average height to be main-  
tained on this trip, Mr. Proctor says, will  
be 2,000 feet.

On the airship's arrival and passage over  
the city, its course will define three large  
circles, and, continuing at full speed, it will  
gradually descend until it rests on the sur-  
face of the Mississippi River. He adds that  
the boat will be driven for two miles along  
the stream on the water front of the city.  
It will then rise from the river with drip-  
ping keel, and, after having attained an ele-  
vation of 1,000 feet, will continue to define  
other circles on its downward course until it  
gracefully rests on the World's Fair site.

"The details of construction and original  
ideas embodied in my airship," says Mr.  
Proctor, "being so radically different from  
those that have proven failures, and con-  
sidering the time and study required to pro-  
duce superior results and the great value of  
a practically developed principle, proving  
that the air can be navigated, suggests the  
value of such a demonstration, and seems  
to entitle me to derive a proportionate part  
of the fame and revenue consequent on the  
accomplishment of the realized fact. The  
writer would, therefore, be pleased to hear  
from the World's Fair management in re-  
lation to the promised award to the person  
producing the most successful airship."

Secretary Frank of the Pittsburgh Aerial  
Navigation Company, which has entered a  
driftless craft in the Exposition competi-  
tion, has given a detailed account of that  
invention. He says it is the product of the  
ideas of nine men, forming the member-

## UNITED STATES LEAD AS EXPORT NATION.

United Kingdom Falls Behind,  
With Germany and France  
Third and Fourth.

Washington, Feb. 14.—The United States  
maintained their position as the leading ex-  
porting nation in the calendar year 1901.  
The figures of the Treasury Bureau of  
Statistics, just published, show the ex-  
ports of each of the principal countries of  
the world at the latest available date, and  
clearly indicate that the exports of the  
United States were during the year larger  
than those of any other nation.

While the total for the full calendar year  
is not yet known, the figures for the first  
four months of the year show a clear in-  
crease in the exports of the United States  
over those of any other country. This in-  
crease shows that the average monthly ex-  
ports in the year 1901 were:

United States \$1,134,073,000  
United Kingdom \$1,100,000,000  
Germany \$1,000,000,000  
France \$900,000,000  
Netherlands \$800,000,000  
Belgium \$700,000,000  
Austria-Hungary \$600,000,000  
Sweden \$500,000,000  
Denmark \$400,000,000  
Norway \$300,000,000  
Switzerland \$200,000,000  
Portugal \$100,000,000  
Spain \$100,000,000  
Italy \$100,000,000  
Japan \$100,000,000  
China \$100,000,000  
Russia \$100,000,000  
Other countries \$100,000,000

The exports of the United States thus ex-  
ceeded by nearly \$200,000,000 those of the  
United Kingdom. Upon the face of the figures  
the United States seem to show a reduc-  
tion in the exports of the year 1901 over  
the year 1900. This is due to the fact that  
the figures for the year 1900 are based on  
the fact that the shipments to the Ha-  
waii Islands and Porto Rico were in 1901  
no longer classified as exports to foreign  
countries, and for that reason the export  
figures, on their face, show a slight re-  
duction. While, in fact, if the figures of  
shipments to the islands were included,  
they would show an increase. The figures  
of the United Kingdom are for 1901, \$1,100,000,000,  
and for 1900, \$1,100,000,000, a decrease  
of about \$200,000,000. Germany, for 1901,  
shows an increase of \$100,000,000 over 1900,  
and Austria-Hungary a decrease of \$100,000,000.

On the import side the United States  
stands fourth in the list of nations, the  
imports for the calendar year averaging  
\$1,200,000,000, against \$1,100,000,000 for  
the United Kingdom, \$1,100,000,000 for Ger-  
many, \$1,000,000,000 for France, \$900,000,000  
for the Netherlands, \$800,000,000 for Bel-  
gium, \$700,000,000 for Austria-Hungary, \$600,000,000  
for Sweden, \$500,000,000 for Denmark, \$400,000,000  
for Norway, \$300,000,000 for Switzerland, \$200,000,000  
for Portugal, \$100,000,000 for Spain, \$100,000,000  
for Italy, \$100,000,000 for Japan, \$100,000,000  
for China, \$100,000,000 for Russia, \$100,000,000  
for Other countries.

## TRAINS COLLIDE ON STEEP GRADE.

Three Men Killed Outright and  
Four Probably Fatally Injured  
Near Altoona, Pa.

Altoona, Pa., Feb. 14.—Three men killed,  
four probably fatally and two seriously in-  
jured, one freight train a complete wreck  
and another nearly so, are the results of  
an accident this morning on the Pennsy-  
vania Railroad on the steep grade a few  
miles above Horseshoe Curve.

The list of victims follows:

Dead—A. S. Grove, U. B. Westner and T.  
W. Cooney.

Probably fatally injured—M. W. Hart-  
man, B. O. Kinkaid, J. W. Fiske and  
Simon Frederick.

Control of the second section of an east-  
bound freight train was lost after emerging  
from Gallitzin tunnel, and two miles west  
of Altoona it crashed into the rear of  
the first section. Ten cars, the caboose  
and two engines were completely wrecked.

Grove, Westner and Cooney were in the  
caboose of the forward train. Their bodies  
were torn to pieces. Hartman was stand-  
ing on the front platform of the caboose  
and the shock threw him far down over  
the mountainside. Engineer Fiske and his  
fireman jumped when they saw the train  
ahead of them. Fiske was found uncon-  
scious fifty feet away from the track.

All the injured men were taken to the  
Altoona Hospital, where it was said that  
Fiske was dying and that there was little  
hope for the recovery of Hartman, Kinkaid  
and Frederick. The homes of the  
dead and injured were in Altoona.

The Unsurpassed VINTAGE

Now being shipped of G. H. MUMM'S EX-  
TRA DRY accounts for the phenomenal im-  
provement in the quality of the wine. Im-  
mense reserves guarantee continuance of quality,  
which is similar to the 1895 vintage, being  
more delicate and brassy than the 1892.

PANAY SCOUTS KILL DESERTER.

Several Filipinos Fall in Battle in  
Samar.

Manila, Feb. 14.—The Panay scouts, under  
the command of Captain Walker, in an en-  
gagement on the island of Samar, recently  
captured seven rifles and numerous bolts,  
killed several Filipinos and also killed the  
officer in command who was a notorious  
rebel named Winfrey, a deserter from the  
Forty-third Regiment, whom the Ameri-  
can troops had for months been endeavoring  
to capture.

A man named Long, who deserted with  
Winfrey, is still operating with the Fili-  
pinos.

Take Parker's Headache Powders. They  
are safe and sure. All druggists. Price 10c.

EFFORT TO CAPTURE BANDITS.

Governor of New Mexico Has Is-  
sued a Proclamation.

El Paso, Tex., Feb. 14.—Pursuant to in-  
structions from Governor Otero of New  
Mexico, the Sheriffs of Guadalupe, Lincoln  
and Chaves counties are organizing posse  
of picked men to hunt down the members of  
Jack Musgrove band of bandits, which has  
recently terrorized that region. This means  
that a war of extermination will be waged  
against the outlaws and exciting times are  
expected in that portion of New Mexico to  
which the outlaws have retreated. They  
are said to be in the fastnesses of the wild  
Capitan Mountains.

The Governor addressed a strong letter

to the Sheriffs of the four counties men-  
tioned, urging them to end the "reign of  
terror" in the isolated settlements of East  
New Mexico, caused by the murdering  
and pillaging outlaws, and promising that  
he would be given to those who are  
instrumental in capturing and convicting  
brigands.

Note Charge-City ticket and freight of-  
fice of the Missouri, Kansas and Texas  
Railway now located at 530 Olive street.

TEXAS CINCINNATI MINES.

Austin, Tex., Feb. 14.—Judge H. H. Fil-  
patrick of Marfa, Brewster County, was  
here today to inspect and inspect the cin-  
cinnati mines of Brewster County. Judge  
Filpatrick declared that cincinnati exist in  
that section of the State in untold quanti-  
ties and it was already being developed,  
and it promises to be one of the leading in-  
dustries of that portion of Texas. It is un-  
derstood that injunction proceedings may be  
brought by the State to prevent the develop-  
ment of the ground that the cincinnati re-  
serves are actual settlers and the land was  
not bought under the mining act, but as  
grazing land.

Note Charge-City ticket and freight of-  
fice of the Missouri, Kansas and Texas  
Railway now located at 530 Olive street.

A Week Without Food.

REPUBLIC SPECIAL.

Evansville, Ind., Feb. 14.—Late yesterday  
afternoon Fred White and wife were found  
in the old hospital in the West End al-  
most starved to death. The wife said that  
they had had nothing to eat for a whole  
week and that they were found by the officers  
who were huddled in the room with  
pieces of old carpet over them for  
clothing.
